“ Our mom was a good mother, a hard worker, and a very fun (and funny) person. There was always a puzzle on her dining room table. She and Bob would spend hours upon hours putting them together (and when we visited them, we participated too). She enjoyed canning from her garden ... her sweet pickle relish was the best! And, she made spaghetti sauce and tomatoes and green beans and apple butter and preserves. She would paint pictures, do beaded framed art, create intricate wood carvings with her Dremel power tools (in her shop on their property), she made beautiful framed string art, and was always busy with her crafts in her spare time. She entered many county fairs for years and brought home several awards and ribbons that she hung in her sewing/craft room in their basement. I remember visiting and she would have us pick out jewelry she had made for us to take home. When Mom and Bob lived in Hastings, Nebraska, she took part in many community plays (she was a wonderful actress) and won awards for her performances. She would also dress up for Halloween (as a mummy in full costume and make-up) to scare the little children that were trick or treating. We are all proud to have had her as our mom. We miss her very much and she will live in our hearts forever. We appreciate all of you who were friends of hers ... she cherished you. All our love, Terri and Kathy and Mark
