“ *Pauletta & I had been friends since high school. I loved her dearly & will never forget her. She was always there to help & stand by you. She loved her Two sons with all her heart. She usually had a story to tell me what & where Jeff & Chris had been or what they had been up to. We have lost a beautiful person. I will miss you, my dear friend.*

“ *So so sorry. I really liked your mother and I am sad to hear of her passing. I got to know her from the store and she was a bright light for me.*

“ *Ms. Fink was a vibrant kind soul and always greeted you with a smile. I have fond memories of her bringing my dog Charly treats and toys every time we can into H-town for a visit to “The Palace.”*

I worked with Pauletta at the American Waterworks when it was on north 10th street here in Richmond Indiana. This was back in the 50's. We were good friends and I really liked her. I knew your dad too before they were married. Begley's lived on So 13th at that time.
